Art Unit: 1793

The election of SWNTs is noted. All claims are under consideration. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action. The RCE is accepted.

Claims 63, 132-138 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Chen et al. article.

The reference teaches single walled nanotubes, which is what results when you add aryl substituents to SWNTs and then remove them.

Other references to single walled carbon nanotubes are considered pertinent and cumulative.

Applicant's arguments with respect to claims above have been considered but are moot in view of the new ground(s) of rejection.
